

## NOTES, RULES AND REGULATIONS

- Responsibility.** The Organisers of this Show have taken reasonable precautions to ensure the health and safety of everyone present. For these measures to be effective, everyone must take all reasonable precautions to avoid and prevent accidents occurring and must obey the instructions of the Organisers and all the Officials and Stewards. The Society, its Officers or Servants or Agents shall not be responsible for any injury, damage or loss however caused to any animal, article or other property, belonging to the exhibitor and the exhibitor agrees to indemnify the Society in respect of any costs in connection with any claims made upon the Society as a result of the actions or omissions of the exhibitor or of any employee of the exhibitor. Each exhibitor shall be solely responsible for any loss, injury or damage that may be done to, or occasioned by or arising from any animal, article or property exhibited or brought on to the Showground by him and he shall indemnify and hold harmless the Society from and against all actions, suits, expenses and claims on account of or in respect of any such damage or injury, which may be so caused or occasioned. The Society, its Officers or Servants will not be liable for any errors or mistakes that may happen in placing, or penning the stock or articles to be exhibited but the servants in charge of the same must see that they are placed according to their entries. The Society expects all exhibitors to have had experience in display of livestock at Shows and all exhibitors should be aware of the distractions that can be caused to exhibits in their possession during the course of the event. At the steward's discretion, an animal can be prevented from showing if deemed to be a health and safety issue.
- Attendants.** Exhibitors or their attendants must remain with their exhibits during the whole time they are at the Show and must comply with and be governed by the Society's Rules and Regulations.
- Bulls.** All Bulls above twelve months old shall have rings or "bull-dogs" in their noses and be provided with leading sticks.
- Judges.** The Judges named in the Society's Prize Schedule and the Show Catalogue or Programme have consented and have been appointed to act as Judges in the events indicated. The Committee reserves the right to appoint substitutes for any who may be unavoidably prevented from attending and all entries are accepted upon that understanding.
- Judging.** Judging will commence as near as circumstances allow, at the times stated in the Schedule under the respective sectional headings and exhibitors will be held responsible for their exhibits being in the Judging Ring at the proper time. The society reserves the right to amend the start time of judging dependent upon entries.
- Illegal Use of Drugs & Sedatives.** The Show will be co-operating with the National Cattle Breeders Association to discourage the illegal use of drugs and sedatives in cattle production. The Committee reserves the right to request a blood sample from any animal about which a Steward or Judge has suspicion of drugs being used to gain unfair advantage.
- DNA Sampling.** It should be noted that it is a condition of entry that exhibitors accept that the Society reserves the right to take DNA samples for analysis from the exhibit and dam and sire of same to verify cattle passport details. This will be undertaken by a veterinary surgeon nominated by the Society and the Samples will be tested by a recognised blood testing agency. Duplicate samples will be made available to the exhibitor for independent testing.
- Objections.** Should the right of any party to a prize awarded on the first day of the Show be disputed notice of the same must be given to the Secretary, in writing, not later than 12 noon on the succeeding day and to any award on the second day of the Show before 3pm in the afternoon of that day, or within seven days from the date of the Show, when the evidence to substantiate the protest cannot be obtained on the days of the Show. The person giving such notice must lodge the sum of £50 in the hands of the Secretary, as a guarantee that he will attend a meeting of the Society's Committee of which he will have notice and support his case. If he does not so attend the deposit of £50 will be forfeited to the Society. The £50 will be returned only if the objection is upheld. The decision of the Chief Steward will be final in the event of any objection raised on eligibility, judging, award and prizes and other related matters.
- Stewards –**
  - At a Steward's discretion an animal can be prevented from showing if deemed to be a health and safety issue.
  - Power to Enforce Regulations. The Committee delegates full power to the Stewards to enforce the Society's Rules and Regulations.
  - The Current Chairman, Chief Steward and Chief Ring Steward of the English Winter Fair or National Calf Show are prohibited from exhibiting during their terms of office.
- Interpretation of the Rules and Regulations.** The Society reserves to itself by its Committee the sole and absolute right to interpret these Rules and Regulations or any other prescribed Conditions arbitrarily to settle and determine all matters, questions or differences in regard thereto, or otherwise arising out of or connected with or incidental to the Show. Also, to refuse or cancel any entries, to postpone or abandon the Show and relax conditions as the Society may deem expedient.
- Exhibitors** will be required to undertake to comply with any bio security Regulations that DEFRA may impose.
- Fixing & Tampering.** Any artificial contrivance or device of any description found on or proved to have been used on an animal at any time whilst that animal is in the Showground for any improper purpose, will disqualify that animal from being awarded a prize, and any prize awarded prior to discovery will be forfeited. The Instigator or The Owner of the said animal may be prohibited from again entering Stock for any of the Society's Shows, for such period as the Committee may see fit. For the purpose of this Regulation, the term 'improper practice' shall be held to include any practice including tampering of their own or any other animal by the exhibitor or any other person which results in the animals being shown other than in a natural state, and the Society reserves the right to have all animals inspected by the Society's Veterinary Officers, either prior to, during, or after judging. The Society will not tolerate the administration to show exhibits (entered either for competition or sale/demonstration) of tranquillisers or other drugs which may in any way affect the performance of the animal in question to have the effect of making it behave in the show ring in a manner which is not natural. The Society reserves the right to take any necessary samples from any animal about which a Steward or Judge has suspicion of drugs being used to gain unfair advantage. Any Person or Exhibitor (or his representative) who is found to have administered or permitted the administration of any such tranquilliser or drugs to any Show exhibit will be reported to the Organising Committee and dealt with at their discretion. In addition, the matter will be referred to the appropriate Breed Society or Organisation.

# Take our industry higher Shout about the sire

**Did you know?**

There are now carcase trait EBVs that will help you choose a bull based on the things you get paid for

These EBVs can only be generated if you record the ear tag number of the sire when registering a calf with BCMS

The more sires that are registered, the more accurate the EBVs will be

## But it's not all about EBVs

By naming the sire at calf registration, you will be

- Generating data to make decisions about your herd breeding strategy
- Elevating the industry to be more competitive in changing times
- Making your livestock more attractive to potential buyers
- Creating consumer trust through traceability

**SIRES OF DAIRY BRED CALVES MATTER TOO!**

**45%**

of all prime beef in England is a product of the dairy herd

CURRENTLY, ONLY

**23%**

OF SIRES ARE REGISTERED ON BCMS

Don't know who the sire is? AHDB Beef & Lamb have tools to help you record breeding information more accurately, making it easier to record the sire when registering calves.
