BIO SECURITY RULES
HARRISON & HETHERINGTON LIMITED, BORDERWAY MART, CARLISLE
Notice to all Visitors and Traders

Please read and observe the following:

Excessive dirty vehicles will not be allowed entry, therefore ensure vehicle is clean before arrival.

All vehicles transporting livestock will be subject to a documentation check before entry to market site.

All visitors and traders must ensure they wear clean clothing and footwear before entering market site.

All visitors and traders using car park areas please use main entrance.

Hauliers and farmers delivering livestock must disinfect their boots before and after loading or unloading.

Livestock purchased or unsold will not be allowed to move unless an authorised "pass slip" has been issued by the main office.

No livestock will be allowed to remain on the premises after a sale.

Only staff, livestock hauliers, owners or their agents are permitted to load or unload livestock.

Wash hands thoroughly when leaving pannage areas.

Please observe our staff's instructions at all times.

Our on site Biosecurity Officer, Stuart Graham, will only be too pleased to give you assistance.

Our Heritage – Your Future

General Information & Sale Notes

LOCATION: BORDERWAY MART, CARLISLE – Leave M6 motorway at junction 43 and follow Carlisle signs. The market is on the left hand side of the road within 1/4 mile of M6. For Sat. Navs. postcode is CA1 2RS.

Timetable of Events:-

BORDERWAY MART, CARLISLE		CPH No – 08/067/8019
Thursday 12th May	Arrival of Stock	11am - 4pm
	Inspection of Stock	3pm - 6pm
Friday 13th May	Judging	10.30am
Saturday 14th May	Sale	10.30am

CONDITIONS OF SALE - The British Blue Cattle Society have adopted the Auction Rules and Conditions of Sale drawn up by the N.B.A. The Sale is held subject to these rules and the Auctioneers' General Conditions of Sale, both available on request. In the event of any discrepancy between the two sets of conditions, the N.B.A. Conditions of Sale shall prevail.

INSURANCE: A representative of H & H Insurance Brokers, will be present at the sale and will be pleased to quote Purchasers for transit and other risks.

METHOD OF SALE: All cattle will be sold in guineas (105 pence) and strictly in catalogue order, unless any alteration is announced by the Auctioneers.

COMMISSIONS: The Auctioneers will dutifully execute commissions to purchase for buyers unable to attend the sale personally, upon receipt of written instructions.

PEDIGREE TRANSFERS: Official Pedigree Transfer will be effected by the Auctioneers and the British Blue Cattle Society as soon as possible after after the Sale. Full Pedigrees will be transferred at a fee of £13.90 (plus VAT) payable by the vendor.

SETTLEMENT AND CLEARANCE OF STOCK: Settlement in full is due immediately at the close of Sale. No animal may leave the Sale Premises without an official 'Pass Slip', obtainable only from the Auctioneers upon settlement.

ANIMAL WELFARE: Vendors and Purchasers should note the CODE OF PRACTICE published by the Livestock Auctioneers' Market Committee for England and Wales IS OPERATIVE IN BORDERWAY MART and that weakly, unhealthy or injured stock will be refused entry by the Auctioneers. Enquiries should be directed through the market office to the Auctioneers' ANIMAL HEALTH and WELFARE OFFICER (Mr Andrew Templeton).

Important Notice to Vendors

ARRIVAL OF STOCK: As per timetable of events (page 5).

Please ensure all cattle passport documentation is handed to the Market Sales Office upon arrival. Failure to do so or if for any reason the paperwork does not correspond to the cattle being offered for sale, such animals will be not be put forward for the auction

PRE-SALE INSPECTION: All animals entered for the sale must be available for inspection in the sale premises by a panel of inspectors, including a qualified Veterinary Officer. The Inspectors will have regard to general health and genetic defects, particularly mouth, teeth, eyes, testicles, locomotion and general conformation. Any animal discovered with a genetic fault, disease, disorder or is considered by the panel to be not in a proper and healthy condition to be presented as representing a good specimen of the breed will be **REJECTED** and the Entry Fee forfeit. Animals will be placed in a crush for this inspection - as required by the inspectors. No pedigree or grade registered stock, entered for the sale, shall have horns.

Two Society Members will form an appeal committee, one of whom will be a society council member. The appeal committee will be elected prior to the sale.

If any exhibitor feels the need to formally lodge an appeal against the result of an inspection, they must from the beginning speak **ONLY** to the Chief Inspector. He will then ask for a deposit of £30 from the exhibitor. The appeal committee will then carry out their own inspection of the animal and their decision will be final. The deposit will only be returned if the appeal is successful.

RECORDED WEIGHTS & HEIGHTS: All bulls will be weighed and measured by an official as an integral part of the pre-sale inspection procedure and the data will be displayed above the animals pen.

EVERY ANIMAL entered for the SHOW & SALE must be halter trained and shall have no horns. Bulls must be led with a nose rope. Every animal entered for the sale must be provided with a serviceable halter, which shall become the property of the Purchaser.

UK TAGS - All cattle entered for the Sale will have their UK Tags marks examined as an integral part of the pre sale inspection procedure. Any Tags found to have faulty, incorrect or illegible marks will be **REJECTED** from the Sale. Vendors are therefore urged, in their own best interests, to examine the UK Tags of Sale cattle before the animal(s) leave their farm, so that faulty marks can be rectified in accordance with the required Society procedures.

CONDITIONS OF SALE

The sale will be held subject to the Auction Rules and Conditions of Sale drawn up by the British Blue Cattle Society:

"No member shall withdraw from sale any animal catalogued for sale. Any member who, having entered an animal for sale under these rules, fails to bring that animal to that sale, must produce, either at the sale or by post to reach the Registered office of the Society within 7 days of the sale, a veterinary surgeon's certificate accounting for such absence on grounds of health. Failure to produce such a certificate within the time stipulated will automatically render the member liable to a summary fine of £50 (imposed by the Council and subject to variation from time to time) in respect of each animal not brought forward. In addition, all entry fees will be forfeited, and no further pedigree registrations or entries for other sales will be accepted from that member until such fine or fines have been paid."

The proceeds of sale are guaranteed by the Auctioneers, who will account to Vendors on the day of the Sale. Such guarantee, however, does not extend to the animals sold for export, to which special conditions apply.

UPSET PRICES - There will be an "upset" price of 1500gns on each bull presented for sale - i.e. if no opening bid of 1500gns is received for any particular lot that lot will be passed out of ring unsold.

ALL REGISTERED CATTLE entered for the Sale (Pedigree or Grade Register), also pregnant recipient cows or heifers will be sold in guineas (105 pence) and a commission 5.25% will be charged by the Auctioneers on all sale.

RESERVE PRICES: Vendors shall have the right to refuse to accept the final bid for their animals, or to fix a Reserve Price, which must be notified to the Auctioneers in writing before or at the time their animal enters the Sale Ring. The auctioneers reserve the right to charge half commission on the amount of the final bid in the case of animals which fail to reach the Vendors reserve price.

No animal may be sold privately before being passed through the Auction Ring and FULL COMMISSION will be charged on the sale of any animal sold by private treaty after the auction. All such transactions MUST BE PASSED THROUGH THE AUCTIONEERS OFFICE.

PRIZE MONEY: Any money will be with held unless the winners are sold, either by auction or private treaty.

STRAW: A limited amount of bedding straw will be provided by the Auctioneers.

The British Blue Cattle Society's Sale levy, amounting to 1% of sale price, will be deducted by the Auctioneers from the proceeds of sale.

BRITISH BLUE CATTLE SOCIETY

Secretary: Mr. Andy Ryder

CHeCS Johne's Programme

The CHeCS Johne's programme has changed to a graded system as in the following table. For more information contact www.britishbluecattle.org. Go to Health/Index/CheCS Johnes Programme.

Status	Definition
Level 1:	This is directly equivalent to the previous CHeCS Accredited free status. Level 1 status is associated with the lowest risk source when buying in stock. They have had 3 or more clear consecutive clear herd tests. Health plan required.
Level 2:	Herds with level 2 status have had one or two clear consecutive herd tests. Health plan required.
Level 3:	Herds with level 3 status have reactors identified at the annual herd test, but these are no more than 3% of the animals tested. Health plan required.
Level 4:	Herds with level 3 status have reactors identified at the annual herd test, and these amount to more than 3% of the animals tested. Health plan required.
Level 5:	Any herd that is not carrying out the required testing or does not have a suitable health plan in place automatically falls into this category. Level 5 status is considered to be the greatest risk source when buying in stock.

Schedule of Classes

Judge – Mr Ian Wainwright

Todhall Farm, Cupar, Fife

Society Inspectors

Adam Neachell, Paul Walker

Neil Forrester & Kevin Beattie BVMS, Cert CHP, MRCVS

Rosettes will be awarded to animals standing

INSPECTION CRITERIA AT SOCIETY SPONSORED SALES JAN 2015

MINIMUM HEIGHT WEIGHT AND SCROTUM DIMENSIONS

This document is published to help members select cattle of the right type and specification, for entry into prestigious sales, held under the auspices of the Society. It also sets out criteria for the Society's Volunteer Inspectors to work to, which in turn, facilitates uniformity across all Society sales. Apart from meeting the minimum standards stated below, pedigree cattle should also conform to the Society's Bylaws, number 1.1 of which states: -

"The definition of the breed's characteristics is as follows: -

A long, large bodied beef animal with fine bones, double muscle, sloping rump and hidden hips, strong legs and correct mouth. Coat colour can be black, white, blue, or any combination of these colours that is acceptable to the Council."

1. The ear tattoo should be clearly legible and the letters and numbers agree with the pedigrees. Animals born after 1 January 1998 require no tattoo, on condition that they have been double tagged, as per Ministry regulations
2. Animals must conform to minimum heights and weights specified by the Society's Council. See over for the detailed charts
3. Teeth and jaws should be correct in terms of position and bone structure. A degree of latitude shall be allowed where an animal is cutting teeth. The Chief Inspectors decision is final, with regard to acceptable jaw and teeth configurations. Animals with mildly defective teeth or jaws will be marked in yellow and allowed to be sold through the ring, in catalogue order, with an accompanying rostrum announcement; *'This animal has not fulfilled the Society inspection criteria in respect of jaws and teeth'*. Where it is a veterinary decision that the animal be rejected then the animal shall be rejected in the normal way, with no appeal, marked in red and not be permitted to be sold through the ring.
4. The testicles and sheath shall be checked for correctness. Testicles should be of good conformation and consistency, with the epididymis showing definition. The minimum circumference of the scrotum between 10 and 24 months is shown overleaf. Animals over 24 months must have a minimum scrotal circumference of 33cm.
5. All animals must be in good, healthy condition and free from signs of infectious diseases, such as Viral Warts, Live Ring Worm etc. *(A Veterinary certificate must accompany animals if previously treated, this treatment must have been carried out at least 14 days prior to the sale)*, Mange, New Forest Disease, Lice.
6. All animals should be able to walk correctly, on the day of inspection, with no genetic defects. The general mobility of the animal should be acceptable for practical use and not be detrimental to the breed's reputation. Bulls with an exceptional conformation will be allowed a degree of latitude with regard to mobility

The Council of the British Blue Cattle Society would urge all potential vendors to adhere strictly to these notes when entering cattle into official sales and to seek advice, prior to the sale, if they are uncertain as to whether an animal will pass. This will avoid the disappointment of any of their cattle being rejected by the Inspectors.

Should any cattle be rejected, it is the vendor's responsibility to ensure that the Lot Number is sprayed in red at the time of inspection. Such cattle may be sold privately from the pens, the sale going through the auctioneer's books.

Rejected animals **may not** be sold through the pedigree or commercial ring at a Society sale

SAFETY

A Vendor must not enter for sale, any animal with a potentially dangerous temperament. The Society's Inspectors have the right to demand the immediate removal, from the sale and the sale premises, of any animal, which, in their opinion, demonstrates a temperament, which could be dangerous to the public

- All Animals Must Be Halter Trained No Animal Shall Have Horns
- It is a statutory requirement that any bull over the age of 12 months, sold through a public auction, shall have a ring in its nose
- The objective of the Official Society Inspection is primarily in place to raise the breed standard and the inspection panel's decision is intended as a purchasers guide only. Prospective purchasers should satisfy themselves as to the suitability of an animal for their particular requirements. By bidding for an animal the intended purchaser accepts the Societies and Auctioneers conditions of sale, the animal being theirs at the fall of the hammer.
- 3 Month Rule – No calf, whether pedigree or commercial, under the age of 3 months will be accepted for either the show, or sale

WEIGHT FOR AGE

GENERAL POINT

Notwithstanding the above minimum heights, weights for age and Scrotal acceptability, animals should also conform to breed type and be of good overall shape.

Revised January 2015

NOTICE TO PURCHASERS

The objective of the Official Society Inspection is primarily in place to raise the breed standard and the inspection panel's decision is intended as a purchasers guide only. Prospective purchasers should satisfy themselves as to the suitability of an animal for their particular requirements. By bidding for an animal the intended purchaser accepts the Societies and Auctioneers conditions of sale, the animal being theirs at the fall of the hammer.

The British Blue Cattle Society

Guide to looking after your new Bull

It is often, quite correctly said, that the bull is half the herd. This should mean that he is treated as being as important as all the other stock put together. What often happens, in practice, is that he is lucky if he is given half the care and attention that others receive. This is in spite of being possibly, the most expensive single animal in the herd.

The first thing to do, when buying, or hiring a new bull, is to plan ahead. Do not rush out to find a bull today, because you want to use him tomorrow. First, be sure about what kind of bull you want and, how many you need and give yourself time to get the right ones. How many you need, depends, not just on the size of the herd but also on the breeding season. It is the number of cows per day, when working, which matters, not the total number of cows.

Another reason for planning ahead is to allow time for the bull to settle in. Leaving home for a young bull is just as big a wrench, as it is for your children when they go to 'big school', or leave home. Some bulls are affected by the stress of travel, showing and the sale ring. Stress can disrupt the reproductive system. Some bulls will have poor semen quality for up to two months, following transport. By the time poor results are noticed and a vet, like myself, gets around to looking at the semen, the situation is back to normal. The wise farmer uses this period for quarantine and settling in.

You should, of course, always buy bulls from a reputable source, for both quality and health. As far as reproduction goes – size does matter but it is the testicles, rather than any other anatomical feature. Scrotal circumference is a good 'rule of thumb' indicator of a bull's capacity and you should be looking for 31cm+. However, remember that bulls are still maturing in this respect, up to 2 years of age, or so, so do not overtax them when young.

Some bulls will be 18 months old, or more, before beginning to produce decent semen. British Blue bulls being warranted from 20 months. Give your bull a gentle introduction to the herd. Just give a small group of females at first, (preferably heifers, for a young bull). Young Blues are often unbalanced by their large back-ends, and, if they cannot get a good grip on the cow, will do an involuntary backward somersault, at the critical moment. Present a young 'Blue' with a large Holstein and you are in "It's a business doing pleasure with you" territory!

These are simply matters of common sense; a young bull will not have the capacity, skill, or psychological strength to cope with being suddenly turned out with a herd of large, bossy cows.

Always keep a close check on your bull in the early days. Watch him to ensure he is not having problems with service and, that his libido is good. Check the females regularly for pregnancy. If there is a problem you need to know quickly.

Finally, do not forget his psychological development. Few bulls are natural born killers. Those that turn nasty are mostly made so, by lack of attention and by only being handled for unpleasant purposes.

Keeping a tractable, well-behaved bull takes time and effort. He should be handled and put through handling facilities regularly, for no reason other than to give him a reward. He should have comfortable quarters and his feet etc., should be well cared for. Your bull can make a great contribution to your business: Look after him and he will look after you!

By kind permission of The Blue Cattle Society of Ireland

EXPLANATORY NOTES FOR CATALOGUES

Only British Blue GROUP BREEDPLAN EBVs or INTERIM EBVs with Accuracy (Acc) can be validly compared between herds.

ESTIMATED BREEDING VALUES (EBVS)

The EBV is the best estimate of an animal's genetic merit for that trait.

ACCURACY

An accuracy value is presented with every EBV and gives an indication of the amount of information that has been used in the calculation of that EBV. The higher the accuracy the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Accuracy below 75% should be considered low.

CALVING EASE

Calving Ease EBVs are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

DIR: Direct calving ease indicates how this animal influences the birth of its progeny.

DTRS: Daughter's calving ease indicates how well the animal produces daughters that have easier calving.

BIRTH AND FERTILITY

GL: Gestation Length EBV (days) is based on AI records. Lower (negative) GL EBVs indicate shorter gestation lengths which generally relate to easier calving and increased growth after birth.

BWT: Birth Weight EBV (kg) is based on the measured birth weight of animals, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

SS: Scrotal Size EBV (cm) is an indicator of male fertility in regards to semen quality and quantity. Higher (positive) EBVs indicate higher fertility. There is also a small negative correlation with age of puberty in female progeny.

GROWTH

MILK: 200-Day Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV is indicative of their daughter's milking ability as it affects the 200-day weight of their calves.

200: 200-Day Growth EBV (kg) is calculated from the weight of animals taken between 80 and 300 days of age. Values are adjusted to 200 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400: 400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600: 600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for dam age. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

MWT: Mature Cow Weight EBV (kg) is an estimate of the genetic difference in cow weight at 5 years of age. Smaller, or more moderate EBVs are generally more favourable.

CARCASE

CWT: Carcase Weight EBV (kg) estimates the genetic difference in carcase weight at a standard age of 650 days.

EMA: Eye Muscle Area EBV (cm²) estimates genetic differences in eye muscle area of a 300kg dressed carcase. More positive EBVs indicate better muscling on animals.

FAT: Rib Fat EBV (mm) estimates the genetic differences in fat depth at the rib in a 300kg dressed carcase. More positive EBVs indicate more subcutaneous fat and earlier maturity.

RBV%: Retail Beef Yield Percent EBV (%) represents total (boned out) meat yield as a percentage of a 300kg dressed carcase. A more positive EBV indicates higher percentage yield for the 300kg carcase size.

IMF%: Intra-muscular Fat Percent EBV (%) is an estimate of the genetic difference in the percentage of intra-muscular fat at the 12/13th rib site in a 300kg carcase. Depending on market targets, larger more positive values are generally more favourable.

INDEXES

An index combines the EBVs with economic information (costs and returns) for specific market and production systems to rank animals based on relative profit values. Note that the different types of animals can give similar profit values, so you should also consider both the index and the component EBVs when selecting animals for your production system.

BBB Carcase Profitability Index (£'s) - Estimates the genetic differences between animals in net profitability per cow mated for an example commercial herd targeting the EU market with no marbling requirement. All progeny are assumed to be marketed at around 550-580 kg live weight (280-320 kg carcase weight) at approximately 19 months of age.

Bulls with a higher BBB Carcase Profitability Index will have a greater genetic potential to sire heavier finished progeny. As there are no maternal traits included in the calculation of the BB Carcase Profitability Index, bulls with a high Index will not necessarily be suitable for breeding heifer replacements.

BBB Pedigree Breeding Index (£'s) - This index (£ per cow joined) targets herds that breed their own replacement cows and bulls and slaughter progeny from large framed cows. Steer progeny are slaughtered at around 16 months of age at 620 kg live weight (360 kg carcase weight). The main EBV emphases are on weight, carcase retail beef yield and calving ease. The index estimates the genetic differences between animals in net profitability per cow mated for a herd targeting the EU market with no marbling requirement. With this in mind, the index also identifies suitable replacement breeding animals by also considering the maternal and fertility traits of the animal. Therefore, both direct and daughters calving ease are included in the index.

This index is only reported for animals with at least moderate accuracy for the key traits. Animals must also be in the top 50th percentile or better for Calving Ease Direct, 400 Day Weight and Retail Beef Yield % EBVs.

The British Blue GROUP BREEDPLAN Estimated Breeding Values contained in this Sale Catalogue were compiled by the Agricultural Business Research Institute (ABRI) from data supplied by the breeders. Neither the British Blue Cattle Society nor the ABRI oversee or audit the collection of this data.

The British Blue Superior Carcase Sire Listing Scheme

The eligibility of a bull to qualify for ‘Superior’ status is as follows:

1. **Must be fully registered**
2. **Must come from a herd that is ‘Breedplan’ recorded**
3. **Must be under 36 months of age at the point of sale**
4. **Must be DNA tested**
5. **Must be officially transferred to the new owner**
6. **Must achieve the following ‘Breedplan’ EBVs:**
 - Retail Beef Yield (RBY) – Top 30%**
 - 400 Day Wt – Top 30%**
 - Eye Muscle Area (EMA) – Top 50%**
 - Carcase Profitability Index (CPI) – Top 50%**

EBLEX suggest that ‘selecting a sire with the right genetics could increase the profitability of a 50 cow suckler herd by £1,500 to £2,000 a year’ or £7,500 to £10,000 or more, over the life of a bull.

The Aim of the Scheme

The aim of the scheme is to identify young sires, of high genetic merit, that will provide meaningful financial benefit to commercial purchasers when used in their commercial herds.

The scheme also provides a major incentive for Pedigree Breeders to record their herd and to make available eligible bulls for sale, the interest for such, hopefully being reflected in enhanced demand.

Meat Buyers Seek High EBV Sires

The Scheme also gives meat buyers a ‘Point of Reference’ when sourcing quality British Blue X commercial cattle. Increasingly buying and being associated with animals of high genetic merit, is becoming more important. This is definitely so with meat procurement officers sourcing commercial cattle for the main supermarket groups, the genetics within such animals result in higher retail meat yields and higher profit. This has recently been borne out by meetings that your Society has had with those responsible for buying cattle for the major supermarket groups, hence the introduction of this ‘Superior Sire Listing Scheme.’

For a list of qualifying sires, please visit: - www.britishbluecattle.org/superiorcarcasesirescheme
or contact the Society Office
Tel: 01768 870522 Email: info@britishbluecattle.org

BBCS reserves the right to makes changes to the terms and conditions of this scheme at its sole discretion

QR CODES

In this catalogue we have printed QR code for each animal, this will take you to the web page which will give you full information on pedigree, bar charts and photographs if available

Step 1

Download and install a QR code app on your smartphone if you don't yet have one. Open your App Store, Market, Marketplace or App World application (for the iPhone, Android, Windows Mobile and BlackBerry platforms, respectively).

Step 2

Search for "QR code reader," and then download and install a free app. The app should be named something to the effect of "QR Code Scanner" or "QR Scanner." There are paid versions of these kinds of apps, but the free ones work just as well.

Step 3

Open the QR barcode app on your smartphone, and choose "scan from camera" or "scan QR code" from the main menu. A new window should open with a square in the middle of it.

Step 4

Center the QR code in the middle of the square that's currently displayed by your QR barcode app. The app should automatically take a picture of the QR code for you when it has finished scanning the code. A new pop-up menu will appear, with the QR code information on it.

Step 5

Click the link that was embedded in the QR code, this will direct you to the Society website.

**HEALTH AND SAFETY RULES
HARRISON & HETHERINGTON LIMITED
NOTICE TO ALL VISITORS AND
TRADERS
PLEASE READ AND OBSERVE
THE FOLLOWING**

All visitors and traders on site will be responsible for ensuring that they and their employees or sub-contractors engaged by them comply with all legal requirements, including the Health and Safety At Work etc., Act 1974, The Management of Health and Safety At Work Regulations, The Provision And Use of Work Equipment Regulations, etc.

All visitors and traders will be responsible for ensuring that their operations in no way affect the integrity of the company or its fire, safety or security arrangements and in no way compromise the health and safety and welfare of other visitors to and or employees of Harrison & Hetherington.

Although it is the visitors and traders responsibility to ensure that plant, equipment and systems in work are safe, Harrison & Hetherington Limited reserve the right to ask any visitor or trader to leave the market for any breaches in the Health and Safety Rules and/or Regulations.

Vendors must inform Harrison & Hetherington Limited of any livestock due to attend the market whose temperament, behaviour or condition may call for additional precautions for its safe handling.

When loading or unloading livestock handlers must ensure that the dock and vehicle gates are securely fixed so as to prevent the escape of animals.

Traders are responsible for providing and maintaining suitable livestock handling equipment. They should ensure that livestock handlers are fit, experienced in livestock handling and familiar with the livestock in their charge.

Children must not be permitted in any area where they may be at risk from livestock or machinery.

In the case of bulls, during the period when the show/sale is open to visitors, bulls in stalls or pens should not be left unattended. If the handler is temporarily absent, arrangements should be made with another vendor, steward or member of Harrison & Hetherington staff to oversee the bull until the handler returns.

Handling of Livestock at shows and sales: Harrison & Hetherington Limited recommend that an adult person should accompany any junior person during the showing/sale of livestock in the ring and reserves the right to intervene at any point if, in the company's opinion, the person showing the livestock is at risk in undertaking that activity.

Passageways must be kept clear at all times during the auction sale. PLEASE DO NOT STAND IN THE SALE RING ENTRANCE AND EXIT PASSAGES.

The auction ring man escapes and refuges must be kept clear at all times.

All portable electrical equipment supplied and/or used by visitors and traders must be safe and fit for the purpose and should have a valid portable appliance test certificate.

AUCTIONEER'S TERMS & CONDITIONS OF SALE

(Incorporating the Auctioneer's Terms and Conditions as recommended by the NBA)

1. The biddings to be regulated by the Auctioneers and the highest bidder, subject to the Vendor's reserve (if any), to be the purchaser. No bid shall be retracted and if any dispute should arise between two or more bidders, the Lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their own discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give reason for such action.
2. The Purchaser to give his full name and dwelling place and pay for all Lots purchased immediately at the close of sale. No Lot or Lots shall be removed from the sale premises until paid for and a pass-out slip obtained from the Auctioneer's clerk but each and every Lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective purchaser or purchasers thereof and shall be removed from the sale premises at the purchaser's expense. The right of property shall not pass until the full purchase price is paid.
3. Purchasers paying by cheque must be prepared, if required, to produce a banker's reference. As a result of the Money Laundering Regulations (2003) the auctioneers are unable to accept cash payments in excess of nine thousand pounds sterling for any single or linked purchase transaction.
4. All statements in the catalogue, or made by the Auctioneers at the time of sale, also the correct identification of the animals, are the entire responsibility of the Vendors. The Auctioneers take no personal responsibility for the correctness of such statements or identities.
5. All statements in the catalogue, or any made by the Auctioneers at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only. No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
6. All stock is sold subject to the Conditions of Sale recommended for use at markets by the Livestock Auctioneers' Markets Committee for England and Wales except in so far as these conflict with any Special Conditions applicable to the sale of pedigree stock, when the latter Conditions shall prevail.
7. Neither the Vendors nor the Auctioneers will be responsible for any accident or injury to persons or property, through fire or any other cause whatsoever, nor for any damage by animals prior to, during or after the sale.
8. No undertaking by the Auctioneers or their servants to take charge of any Lot or Lots after the sale or to forward them to their destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of these Conditions.
9. Inasmuch as the Auctioneers act as agents for a disclosed principal they shall not be considered personally responsible for any default on the part of either purchasers or Vendors and the remedy shall be against them only and not against the Auctioneers.
10. If these conditions are unfulfilled, the Vendors or Auctioneers shall have the power to resell the Lots, retaining any surplus and charging any deficiency and expense to the defaulter.
11. You have a right to know how we will use the information you have provided to us. We may share the information with other members of our group and may make this information available to relevant media groups and other interested parties on request. We and other members of the group may contact you by telephone, e-mail, post or fax to inform you of products or services available. If you do not want to be contacted for marketing purposes or do not wish your information to be made available to any other parties please notify us in writing.
